In the year which is about to close, Divine Providen hath been pleased, as in former years, to vouchsafe to the phabitants of this State the various fruits of the earth in their proper seasors -- health, security and tranquillityus commerce and peaceful relations with foreign intries-freedom of conscience-religious instruction and consolation-moral, social, and intellectual improvement-and laws established and administered by Repreentatives chosen by the Pcople:

I do, therefore, appoint Thursday, the ninth day of December next, to be set apart for the customery annual off-rings of Public Thanksgiving and Praise to Almighty God, for all his mercies and blessings; and I recommend that the occasion be observed throughout the Commonwealth with the humility, devotion and gratitude which ecome a free and favored Christian People.

In testimony whereof, I have heresute set my hand and caused the privy seal of the said State to be [L.s.] affixed, at the city of Albany, this twenty fifth day of October, one thousand eight hundred and

forty-one, and of American Independence the sixty-sixth. WILLIAM H. SEWARD. By the Governor, HENRY UNDERWOOD, Private Secretary.

State of the Domestic or Country Market. Reported for The New-York Tribune.

Since our last week's report, Country Produce of all kinds has flooded in upon us in most bountiful supplies. The winter having fully set in, and the close of rive navigation near at hand, has had the effect of spurring up the tardy movements of the countrymen; and our towbeats, market boats, sloops, &c. which have arrived within the last few days have come in with rich supplies, and our wharves and market places have presented an unusually lively appearance.

APPLES.-This useful and delicious fruit is found in our markets in all its vorieties, and in great abundance. The failure of the orchards in some parts of New-Jersey and New York has kept up the prices a little beyond their usual rates. They vary in price from \$1.75 to 2.50 per

BUTTER is a shade lower than it was last week, though fresh and first quality finds ready sale at 23 cents. The general selling price is 21 cents. We believe that, with he exception of the best quality of Goshen, there is more Butter in the city than there was at the same period last year. The tow-boat Minisipk, belonging to the house of Crawford, Mailier & Co., Newburg, came in on Wednesday morning with 1500 firkins of Orange Butter. This is the largest carge we have heard of during the season.

New-Jesrey, and the Counties bordering on the Hudson From the boats in this way it wells for about 3; a 4 cents per lb. It is almost impossible to tell the average amount to our weekly report of the Cattle Market, it will be seen that the a erage number of sheep sold alive at the market is a little short of 3000 per week. It is probably not far out of the way to put down the weekly demand for sheen in the city of New York at 5000 the year round, or for the entire year at 250,000. This at first view appears large but as near as can be ascertained, there are in the united States about 34,000,000 sheep. In the State of country. EMERT DIVISION N. V. S. A.—The offi-

of Trussing Kuptures is in constant and the constant and the constant and the cost of the Truss. The radical cure has been under the prograssive practical improvement for more than 20 years pas. in Dr. Hull's Tress Office, and it now brought to a size of univated perfection. Many treacherous agents have undertaken to vend imitations of Dr. Hull's celebrated Hings and Pivot Truss for the easy and safe retention of Ruptures. These issistions cannot be relied on—they are made by unskiful surgous and mechanics, and are no better than the ordinary Trusses of the market. The genuine have my full name in writing. FIRST DIVISION N. V. S. a20 letf. From Unlignant's Messenger, (French paper.) Nov 1838. Saunder's Metalic Strep. This article has been ex-

quicker, and with more certainty, than any other article we know of FROM ENGLISH PAPERS.

From the United Service Gazette, Dec. 8, 1838.

We receive a great many cadeaux, in the way of samples of commodities, in whose favor the smallest puff is mankfully received; among others, a bottle of brandy, the tasting of which nearly poisoned us. Sometimes, however, inventions is useful art, that we can conscientiously praise, are summitted to car approbation. Such is the four ided Patent Metallic Rezor Strop of Mr. Saunders, which readers any raxor however blant, ready for use is a few moments, without oil or grind stone, and which we do not besides to pronounce the most complete thing of the kind we have ever met with.

From Bell's Weekly Messenger.

Saunders's Patent Metallic Tablet and Razor Strop is one of he best things of the kind that we have seen. This excellent Tablet combines the properties of both hone and strop, requires no oil or other fluid, and is in its use extremely simple. It is most particularly recommended to gentlemen who experience the inconvenience of a tonder face and strong heard, as a razor occasionally applied to the Tablet will receive and return so perfect an edge as to render the operation of shaving as easy and agreeable as it was before unpleasant and paraful.

I have several certificates of the great was and value of the Tablet Strop from scientific gentlemen, but that im ye more satisfactory to the public I deem it right to most the following from Dr. Griscom, Dr. Valectins Mott, and General James Tallmadge.

George Saunders's improved Strop, we can freely testify to its value. The side which he calls the Metalic Tablet is, as far as we know, a thing of his own introduction this country; it appears to be an excellent, convenient substitute for a hone, and operating on the seme principle as steel does upon a table knife, but with far greater smoothness and certainty; it saves the unpleasant necessity of oil and water, to assist in whetting. The other three sides of the strop are extreme

here sides of the strop are extremely well finished, flat, mooth, and almost elastic, preserving the rezer from that coundness of edge which so soon destroys its keenness. I GRISCOM. J. GRISCOM, VALENTINE MOTT. May 19, 1827.
